

Medical Spanish Online

Three effective ways to learn Spanish online

INDIVIDUAL - LEARN ONLINE AT YOUR OWN PACE AND CONVENIENCE

The classic one-on-one teaching in Spanish. These lessons are ideal if you need 100% attention during the class or simply prefer a conversation between two. Just you and your teacher, which guarantees a solid, customized and effective learning experience. You can spend as much time as you need to grasp each topic.

MINI GROUP – TWO TO THREE STUDENTS

You will have classmates from any part of the world and with a level of Spanish similar to yours. Practice your conversation with other students at the same level as you. It is fun and a great way to learn medical Spanish.

MEDICAL SPANISH CONVERSATION CLASSES - THREE/FOUR STUDENTS

Confident and accurate Medical Spanish conversation is the main aim of most of our students. Conversation classes are for those who already have good Spanish knowledge and need more practice and error correction, to enrich their vocabulary and speak Spanish fluently. These courses are designed for people who wish to build their medical Spanish communication skills and to better understand the implications of culture in health
